

The Trigger: Urumqi Fire

- On Nov 24, 2022, people were trapped by “covid barricades” in a high-rise building fire in Urumqi, Xinjiang. 10+ people burned alive.
- Across the country, the Chinese government welds iron sheets, fences, bars, wires to block residential building exits, to “prevent spread of covid”
- The barricades exist for months, imprisoning millions of people in many big cities.

(Wires and nails blocking doors of resident's apartments)

China’s “Zero-Covid” policy IS NOT about Covid

- “Zero-Covid” is just an excuse for the Chinese Communist government to take away people’s rights and profit from it.
- The “zero-covid” measures even spread covid, as the mandatory testings requires thousands of people to gather at testing locations everyday.
- Extreme measures kill people through fire-hazards, starvation, denying medical care for chronic patients, etc.
- People who disagree are silenced, threatened with their job and safety of family, even secretly arrested and “disappeared”.
- Individuals are forced to pay for the PCR tests, with millions of tests conducted per day. There is a huge profit chain for government-owned medical companies.

Living under so-called “Covid measures”

Although the rest of the world has returned to normalcy, Chinese people continue to suffer through increasingly strict measures for nearly all of 2022. Billions of people are affected in hundreds of cities.

- **You are forced to pay for and take PCR tests everyday**, even if you are without any covid-like symptoms.
- A whole building's residents (200+ people) including infants, pregnant mothers, seniors, even the physically handicapped can be **forced to leave their homes and live in warehouses**.

- The Chinese Communist **Government tracks your every movement**. You can't go anywhere, not even the hospital, supermarket, school, or work if you don't have the “health QR code” on your phone.
- Residential buildings use **iron sheets, bars, and walls** to imprison people and prevent them from leaving.
- Chronic disease patients and seniors are **unable to receive treatment or medication** because they are locked in; many have died as a result.

2022

Recent resistance in China

Oct/13

- **Sitong bridge:** Peng ZaiZhou protested by hanging a banner on Sitong Bridge, in the heart of Beijing, where political police are most extreme. His slogan is wide-spread.

Nov/23

- **Chongqing Superman:** an individual with a Superman backpack gave a speech to the crowd against the CCP's forced quarantines, he was saved by the crowd when police came to arrest him.
- **Foxconn workers:** Thousands of workers at the world's largest iPhone assembly plant broke through covid barricades, protest against being forced to work without proper compensation

Nov/26

- **Urumqi:** (11/26-11/27) Following the deaths of nearly a dozen people who were burned alive, thousands of citizens goes on the street to protest against human rights abuses and demand an end to Covid restrictions.

Nov/27

- **Shanghai Urumqi Road:** Hundreds of individuals gather to express their frustrations about forced quarantines and deaths that happened in Urumqi. Many protesters were brutally arrested or went missing.
- **Beijing:** Groups totalling over a 1,000 individuals gather to demand easing of COVID restrictions.

Ongoing

- **Protests in many major cities:** Guangzhou, Wuhan, Zhengzhou, Chongqing, etc. Residents break lockdown barricades and go on street
- **100+ Universities in China:** Students stand up to voice their dissatisfaction

What is happening in China?

- People gather to mourn the **10 lives lost in the Urumqi Fire**, due to extreme “covid” measures
- **Protests and resistance** against inhumane “lockdown” breaking out **in multiple big cities** across China
- Not even mourning is allowed, the **Chinese government is censoring all info** and arresting supporters.
- Crowds in China are **holding up blank pages in protest**. If nothing is allowed to be said, then saying nothing is saying everything

What can I do?

- **Spread the word:** Tell your friends, tell your family, be our voice. Please feel free to **copy and distribute this pamphlet**. Spread awareness about the ugly truth that currently exists in China.
- **Stand with us:** Join the gathering, show allyship, ask questions, express your support, we appreciate it.
- **Stop rumours:** Don’t buy into CCP’s propaganda machine. Speak up and stop the spread of misinformation

China Protest 101

Why are Chinese people gathering here?

We stand here today ...

- **To mourn** those lost in the Urumqi Fire, and the many other lives taken by the extreme “covid policy”
- **To stand with** the brave people resisting and fighting in China
- **To be the voice** for those who can’t speak freely in China
- **To resist oppression** by the Chinese Communist government
- **To fight for freedom and human rights** for people in China
